profile

I graduated from Penn State's architecture school in 2017 with an accredited Bachelor of Architecture and a minor in Architectural History.

Since graduation, I have been working professionally in architecture firms, with a focus on K-12 school design & project management, community-driven design, concept design, renderings, and architectural graphics.

In my free time, I practice graphic design and other creative outlets. You can find me day-dreaming about mid-century modern design, drinking green tea, or hanging out with my husband and my cats, Midas & Henry.

leadership
